A Genealogy Odyssey

0520

William J. Zehner, CGSM

Six exciting and informative essays on timely topics for family historians. State-of-the-art techniques that you can put to work immediately in your own research	
January 21 Deep Maternal Ancestry	Many can trace ancestral lines back 200 or 300 years. But where were your ancestors living 1000, 5000, or 20,000 years ago?
January 28 Googling for Genealogists	Little-known search engines and directories for locating hard-to-find records all over the country without leaving your house
February 4 Cemetery Research	How to identify your ancestors' burial site, get to it, and what to do and look for when you arrive
February 11 Y-DNA Testing for Paternal Ancestors	Add this powerful new technology to your genealogy tool box
February 18 Over My Shoulder	Watch how professional genealogist works around common stumbling blocks while solving family mysteries
February 25 The Census Enumerator Missed My Ancestor!	Case studies show how the pros work around indexing errors to find those illusive families
